Economics of Markets and Organizations

The Right Step Forward

Joint programme of
Faculty of Business
Administration, VSE
and CERGE-EI

About

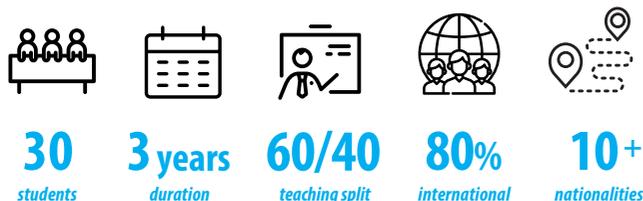

The Economics of Markets and Organizations program (EMO) was created by combining two top institutions – CERGE-EI and the Faculty of Business Administration at VŠE. At CERGE-EI, you'll dive deep into economics, data, and statistics. At the Faculty of Business Administration, you'll learn how to put that knowledge into practice, in management, business, and real projects with companies. Together, these two schools give you the best of both worlds – strong analytical skills and practical business know-how, taught by real experts in the field. After graduating, you'll be ready for careers where analytical thinking and understanding how markets work really matter.

One of the key advantages of this program is flexibility. You can either continue with academic research at CERGE-EI or pursue a hands-on master's degree in international management at the Faculty of Business Administration.

Why EMO?

- » **Two leading institutions, one unique programme:** Jointly run by FBA VSE and CERGE-EI, combining top-tier business and economics expertise.
- » **Interdisciplinary by design:** Connects economic theory with real-world management and market dynamics.
- » **Learn to understand and shape markets:** Gain tools to analyze industries, competition, and regulatory frameworks.
- » **Strong quantitative and analytical foundation:** Develop data, econometrics, and programming skills essential for modern economists.
- » **Practical and research-driven learning:** Apply theories to real-world cases, projects, and empirical analysis.
- » **Career-ready for a changing economy:** Prepare for roles in consulting, policy, international organizations, or further studies.

Key facts

Programme description

The three-year Bachelor in Business Administration programme provides a comprehensive package of courses for successful managerial work in the corporate sphere, banking institutions or in own businesses. To complete the Programme, a student has to fulfil a **workload of 180 European Credits** by participating in:

- » Marketing
- » Behavioral Economics
- » Economic Data for Business
- » Personnel Economics
- » Law
- » Cost-Benefit Analysis
- » Macroeconomics

+ a great number of Elective and Language courses to choose from

Teaching methods

Classes combine lectures, seminars, and practical exercises. The program emphasizes student-centered learning, peer-to-peer interaction, analytical and critical thinking, teamwork, and independent study. Assessment methods include tests, essays, presentations, and case study projects. Students will benefit from leading experts from both CERGE-EI and FPH VŠE, gaining insights from research and practical applications in economics, markets, and organizational management.

Recognition

CERGE-EI is ranked among the top 10% of economic research institutions worldwide (SSRN), while FPH VŠE is the only faculty in the Czech Republic with triple international accreditation (EQUIS, AMBA, AACSB) and a program ranked 16th in the Financial Times Masters in Management 2024. This combination ensures high academic standards and strong links to cutting-edge research.
